

Funding Idaho's Transportation Future

Idaho's state and local transportation agencies need an additional \$240 million each year to meet increasing transportation needs. ITD has prioritized its existing funds as follows:

- **Operations – Snow plowing, pothole patching, etc.**
- **Preservation – Pavement overlays**
- **Restoration – Rebuilding of the road from the base**
- **Expansion – Creation of new roads or widening of current roads (GARVEE).**
